PROFESSIONAL SUMMARY

Innovative Front-end developer with three years of experience creating and maintaining responsive web applications. Proficient in HTML5, CSS frameworks, JavaScript, React.js, and other front-end frameworks. Passionate about writing fully functional and reusable code. Strong interest in building relationships with stakeholders and managing teams. Utilizes Agile, Scrum, and Kanban approaches to project challenges and issues. Seeking a transformative role to deploy my software development career and dynamic leadership instinct to propel unprecedented innovation and catalyze exponential growth within a visionary organization.

PROFESSIONAL EXPERIENCE

Wazobia Technologies, Software Developer 🔗

Nov 2021 – present
Greenhithe, London

- Collaborated with an eight-person team including engineers, product designers, and a project manager to develop a website-building application, Hivedeck.
- Designed, planned, and deployed various software products with a cross-functional team.
- Supported developers in implementing project requirements and outlined sprints with the Project Manager.
- Developed and extended features in multiple products, codifying best practices in policies and code reviews.
- Communicated with stakeholders to understand feature requirements and provide continuous project updates.
- Managed the entire SDLC cycle with multiple stakeholders.
- Developed and optimized the corporate website (<https://wazobia.tech> 🔗).

Below are our recently launched works at Wazobia Technologies :

Hivedeck 🔗

A website-building application that allows businesses to build applications in a few clicks. HiveDeck offers a free website builder catering to small and medium business owners, creatives, and entrepreneurs.

LayerLines

An Academy website, showcasing Wazobia's expertise in design and technology solutions. Collaborated with the team to deliver a visually stunning and informative platform that resonates with the target audience.

Zinox Media LTD, *Project Manager/Scrum Master*

Oct 2020 – Oct 2021 | Lagos

- Improved team performance by over 30% within six months, achieving an 85% efficiency rate through workflow transformation and training in agile practices.
- Facilitated Scrum ceremonies including sprint planning, daily stand-ups, sprint reviews, sprint retrospectives, and backlog grooming sessions.
- Optimized product backlog management by prioritizing items and collaborating closely with stakeholders, achieving a 90% satisfaction rate.
- Translated customer feedback into detailed requirements and user stories through direct engagement and data analysis.
